St Andrews for Golf: Women in Golf Charter

Date: 23rd June 2025

St Andrews for Golf is a premier golf experience company based in St Andrews. We specialise in luxury golf travel and PGA-led golf instruction, catering to golfers of all skill levels from around the world. As an Authorised Provider of Guaranteed Old Course Tee Times, we take pride in delivering exceptional golf vacations and personalised, high-quality tuition.

We are proud to submit this pledge to be a signatory of the R&A Women in Golf Charter. We believe that golf should be a sport where everyone, regardless of gender, feels welcomed, included, and empowered to thrive. We fully support the Charter's vision of a more inclusive culture in golf and are committed to driving meaningful change through actions within our influence.

Our Commitment

As an organisation, we are committed to supporting women in leadership roles in golf travel and tourism. Given the breadth of our work, we also see significant potential to grow participation among women travelling to Scotland and the wider UK for golf vacations and experiences. Our unique position allows us to promote and enable engagement across the spectrum, from casual players to passionate enthusiasts.

Outcomes We Hope to Achieve

By becoming a signatory of the Women in Golf Charter, we aim to achieve the following outcomes:

1. Increase the number of women and girls who participate in golf travel experiences through tailored packages and inclusive messaging.
2. Promote greater visibility of women both working in and playing golf through our marketing channels and storytelling.
3. Support more women pursuing careers in the golf travel industry by role modelling female golf leadership within the organisation.
4. Forge partnerships with women-led golf organisations and events to broaden our network and directly support female-led initiatives.

Where We Can Contribute

We believe we can contribute most effectively to the overarching aims of the Charter in the following areas:

- Encouraging Participation: By creating and promoting golf travel experiences that are attractive, accessible, and welcoming to women.
- Representation and Visibility: By ensuring women are well-represented in our marketing and communication materials, helping to challenge traditional stereotypes in golf travel imagery.
- Role Modelling Female Leaders: By supporting, celebrating and building confidence in female leaders both within the organisation and the wider golf travel industry.
- Advocacy and Partnerships: By using our platform to spotlight female achievements in golf and building collaborations with industry stakeholders who share our commitment to gender equality.

Actions We Will Take

To support these outcomes and contribute to the aims of the Women in Golf Charter, we will:

1. Conduct research into women's preferences for golf travel packages - insights gained will inform the development of bespoke ladies' golf vacation packages to add to our existing offering.
2. Undertake research into women's preferences for golf instruction - insights will guide the development of dedicated women's coaching offerings on our website.
3. Audit and adapt our marketing materials – as part of our digital redevelopment plan, ensure inclusive representation in our digital and print marketing, with consistent visibility of women golfers across our website, social media, and promotional materials.
4. Invest in the development of female leaders in St Andrews for Golf – support and fund professional development opportunities for female staff, with a focus on enhancing their confidence to lead within the golf industry.
5. Partner with women in golf initiatives – continue to support and partner with organisations, events or initiatives that align with the goals of the Charter, including sponsorships and co-promotional opportunities.

Conclusion

We believe that signing the Women in Golf Charter is not only a statement of intent but a responsibility that aligns with our values and vision for the future of golf. St Andrews for Golf is committed to being a proactive, consistent force for positive change and inclusion in the golf travel sector.
